

RIVESTIMENTI MURALI INNOVATIVI

Siamo nati dalla passione per la stampa e l'interior design, realizzando disegni per le nostre carte da parati e altri prodotti per interni. Progetti pensati per aggiungere una vibrazione positiva all'interno degli ambienti. Tutte le nostre collezioni vengono disegnate nel rapporto di 500x300 cm, in scala 1:1 a 150 dpi pixel/pollice, questo permette di ottenere risoluzioni e profondità che esaltano la precisione dei particolari.

Per noi non esistono compromessi, lavoriamo solo con materie prime ed inchiostri certificati e a basso impatto ambientale, attenti nel realizzare un'economia circolare.

Utilizzo di materie prime certificate FSC® (di differente origine)

Ottimizzazione del processo di stampa

Stampiamo solo ordini e non produciamo magazzino.

Donazione degli scarti di produzione

Il poco scarto prodotto viene donato ad associazioni di volontariato che lo riutilizzano creando oggetti per sostenere le loro economie.

Realizzazione di un prodotto con un basso scarto produttivo consegnato

Minore del 2% rispetto al volume del prodotto consegnato.

Utilizzo di imballaggi in cartone di origine riciclata

Carta da parati innovativa, coniuga un design moderno ed elegante ad un prodotto estremamente flessibile, di facile trasporto (basse emissioni di CO2) e di facile applicazione. La progettazione delle nostre collezioni avviene attraverso una ricerca di stile da parte dei nostri designer, sempre attenti e aggiornati sui trend più attuali.

Questo catalogo ti consentirà di verificare un'ampia gamma dei nostri disegni, ma non possiamo inserirli tutti, poichè amiamo giocare con il colore e con le forme. Se vuoi verificare tutte le nostre collezioni collegati al nostro catalogo ON-LINE estra.net

Sul nostro sito trovi un configuratore che ti permette di realizzare un preventivo su misura per la tua parete, confermare il prodotto scelto con il taglio grafico a te più congeniale e procedere all'ordine in autonomia. Puoi anche cercare uno dei nostri rivenditori certificati nella tua zona.

SUPPORTI CERTIFICATI

Puoi stampare le nostre collezioni su 3 differenti tipologie di supporti:

E-WALL PAPER: carta da parati tradizionale retro in TNT senza pvc 180g/m2

E-WALL FIORD: carta da parati vinilica con retro in TNT 350 g/m2

E-WALL HEAVY: fibra di vetro 265 g/m2 ideale per ambienti umidi e difficili

E-WALL PAPER è una carta da parati patinata SENZA PVC. Questo prodotto rinforza la parete e nasconde alcune piccole imperfezioni, leggera ma resistente è la scelta perfetta per produrre carta da parati per il mercato residenziale.

Peso: 180g/m2 · **Spessore:** 185 micron · **Finitura:** liscia satinata

Ignifugo: C-S1, d0 secondo la classificazione Euroclass EN 13501-1

Altri benefici: applicazione della carta con incollaggio diretto sul muro. Ideale per immagini fotorealistiche e collezioni geometriche.

E-WALL FIORD è un tessuto non tessuto texturizzato rivestito in vinile stampabile. Carta da parati con trama di tela. È un'opzione elegante e universale, con differenti campi di applicazione come abitazioni, strutture ricettive e hotel. Il rivestimento murale è ignifugo e trattato con BIO-PRUF™, una tecnologia che fornisce una protezione antimicrobica di lunga durata.

Peso: 350g/m2 · **Spessore:** 550 micron · **Finitura:** opaca con superficie in tela di lino

Ignifugo: S1, d0 secondo la classificazione Euroclass EN 13501-1 Marchio CE/EN 15102:2007+A1 2011

Altri benefici: applicazione della carta con incollaggio diretto sul muro. Ideale per collezioni con soggetti materici. Certificato FSC®

E-WALL HEAVY è una carta da parati in tessuto di vetro di alta qualità senza PVC, realizzato con fibre di vetro intrecciate robuste e di lunga durata. Grazie alla sua superficie resistente ai graffi, è adatta per l'uso a lungo termine in aree ad alto traffico, oppure in zone particolarmente umide [ATTENZIONE: in zone a diretto contatto con acqua, il montaggio del prodotto deve essere realizzato da professionisti certificati]. Il materiale in ambienti umidi permette al muro di respirare e questo previene il formarsi di muffe o funghi, rendendola il rivestimento più adatto.

Peso: 265g/m2 · **Spessore:** 410 micron · **Finitura:** opaca con trama in fibra di vetro

Ignifugo: B-S1, d0 secondo la classificazione Euroclass EN 13501-1

Altri benefici: robusto e duraturo, non si allunga né si restringe, può essere pulito facilmente, rinforza la parete. Applicazione della carta con incollaggio diretto sul muro.
